DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 11/18/04 has been entered.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance.

The prior art does not teach all of the limitations of the claimed invention including heat processing the applied liquid to form the electroconductive film, energization processing the electroconductive film, where the liquid passes a liquid storage tank, a gas removing device and a temperature adjusting device sequentially in that order.

Accordingly, Claims 29, 30, 41 and 42 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The newly cited references by the applicant(s) in the Information Disclosure Statement (filed on 11/18/04) are relevant to the extent that each (JP 54-139534 and JP 61-32989) shows heat processing a liquid where the liquid passes a liquid storage tank, gas removing device and a temperature adjusting device. However, the JP references fail to show any electroconductive film that is contained within the liquid.
